Deuteronomium 6:4-9

"Everything that's already in the world when you're born is just normal. Anything that get's invented between then and when you turn 30 is incredibly exciting and creative and with any luck you can make a career out of it. Finally anything that get's invented after you're thirty is against the natural order of things and the beginning of the end of civilization as we know it until it's been around for about ten years when it gradually turns out to be alright really." - A Hitchiker's Guide to the Galaxy
